

SENATE PASSES
TARIFF MEASUREApproves Democratic Revision
Bill by Vote of 44 to 37.

APPLAUSE GREET'S RESULT

Roll Call Proceeds Quietly Until Sena-
tor La Follette Votes "Aye" as His
Name Is Called, When the First
Cheering Occurs—Senator Poinde-
xter's Vote Causes a Similar Demon-
stration.Washington, Sept. 10.—The Demo-
cratic tariff revision bill passed the
senate by a vote of 44 to 37 amid a
burst of applause that swept down
from crowded galleries and found its
echo on the crowded floor of the senate.Its passage was attended with sur-
prises in the final moments of the
voting when Senator La Follette, Re-
publican, cast his vote with the
Democrats and was joined a few mo-
ments later by Senator Poinde-
xter, Progressive.The Democrats had counted
throughout the long tariff fight upon
losing the votes of Senators Ransdell
and Thornton of Louisiana, Demo-
crats who voted against the bill be-
cause it would put sugar on the free
list.Until the names of Senators La
Follette and Poindecker were called,
however, no one knew definitely the
stand they would take and their votes
were greeted with applause.President Wilson expressed grati-
fication over the end of the long
struggle in the senate.Senator Simmons, chairman of the
finance committee, who had piloted
the bill through the finance com-
mittee, the Democratic caucus and
the senate, predicted that its pas-
sage would bring immediate stimulus
to the business of the country.

Lower Than House Rates.

As it passed the senate the tariff
bill represents an average reduction
of more than 4 per cent from the
rates of the original bill that passed
the house and nearly 20 per cent
from the rates of the existing law.In many important particulars the
senate has changed the bill that passed
the house, and a conference com-
mittee of the two houses will begin
work Wednesday or Thursday to ad-
just these differences.Leaders of both houses predict that
the conference will consume less
than two weeks.The senate endeavored to hasten
the bill on its passage to the White
House by naming its members of the
conference as soon as the bill passed.
Vice President Marshall appointed
Senators Simmons, Stone, Williams,
and Johnson, Democrats, and Sena-
tors Penrose, Lodge and La Follette,
Republicans, as the senate conferees.
Senator Stone withdrew from the
committee and Senator Shively was
appointed in his place.The house conferees, it was reported,
will be Representatives Under-
wood, Kitchen and Rainey, Democrats,
and Payne and Fordney, Republicans.
Senators Clapp and Nelson of Min-
nesota voted against the bill, Senator
Gronna of North Dakota was absent
and Senator Crawford of South Da-
kota did not vote.Senators Cummins and Kenyon of
Iowa, Senator McCumber of North
Dakota and Senator Stephenson of
Wisconsin voted no.

Offers Final Amendments.

During the closing hours of debate
Senator La Follette had been the cen-
ter of interest proposing final amend-
ments to the cotton and wool sched-
ules and discussing some features of
the bill which he deemed favorable.When the vice president put the
bill upon its passage Senator Ashurst,
first on the roll, shouted "aye" and
the roll call proceeded deliberately un-
til the clerk called "La Follette."The Wisconsin senator, seated in
the front row, hesitated a moment.
His head was bowed and resting on
his hand. He leaned forward a trifle
and vigorously answered "aye."Instantly the applause broke from
the galleries and senators on the Demo-
cratic side joined in the enthusiastic
hand clapping, nearly every Democrat
on the floor participating in the brief
but vigorous demonstration.When the name of Senator Poinde-
xter, the only Progressive senator, was
reported and contributed his vote for
the bill the applause was renewed.When the vote had been announced
Senator Gallinger of New Hampshire,
the leader of the minority, was recog-
nized and congratulated Senator
Simmons for his "courteous, kindly
and considerate manner" in the con-
duct of the debate.He said he knew of no tariff fight
characterized by such good feeling
throughout and attributed it to the
personality of Senator Simmons.Senator Simmons expressed his ap-
preciation.
"I am greatly gratified that the bill
has passed," he said, "and I think
that it will not be long in conference.
In my opinion there has been some
stagnation of business in the country
pending the action of the senate. Now
I believe that there will be an imme-
diate stimulus to business and that in
the end we will have better times in
this country."Not Their Exclusive Specialty.
Parrots are not the only ones who
talk a good deal without a satisfactory
excuse.—Atebison Globe.TAKE THAW FOR
FRESH AIR TRIPGuards Accompany Prisoner on
Quiet Stroll.

WATCHES SUNSET FROM HILL

Slayer of Stanford White Enjoys the
First Outing of the Kind in Nearly
Seven Years—Lawyers May Desire
His Presence in Montreal on Thurs-
day.Coaticook, Que., Sept. 10.—Harry
K. Thaw stood on a hill overlooking
Coaticook and watched the setting
sun. High grass brushed his knees,
birds fluttered in a patch of woods
nearby.It was the first outing of its kind
the slayer of Stanford White has had
in nearly seven years.In the asylum at Matteawan from
which he escaped Thaw had to take
his exercise in a courtyard, but when
he asked for an airing his guards led
him up the hill to the west of the
village and for half an hour they
stumbled together through the tangled
grass and weeds.Reports reached Coaticook from
Montreal that Thaw's lawyers might
desire his presence there on Thurs-
day, four days before he is to be
brought before the king's bench on
the writ of habeas corpus.Thaw said he had received a tele-
phone message from his mother, Mrs.
Mary Copley Thaw, and his sister,
Mrs. George Lauder Carnegie, now in
Montreal.A musical comedy company en-
route to Sherbrooke stopped at Coati-
cook for twenty minutes. Ten girls
shrieked messages of good will to
Thaw, turkey trotted up and down
the station platform for his edifica-
tion and cheered when the train pulled
out.Thaw stood at his window, laugh-
ing, clapping his hands and nodding
approval.

FRIENDS FEAR HE IS DEAD

Timothy D. Sullivan Missing Since
Last Tuesday.New York, Sept. 10.—While friends
and relatives of Representative Tim-
othy D. Sullivan, who disappeared
from the home of his brother Tuesday
last, expressed belief that Big Tim, as
he is known along the Bowery, is
hiding in New York and laughing at
the efforts being made to find him, it
became known that they are apprehen-
sive concerning his safety.Dr. Herman L. Reis, Sullivan's phy-
sician, feared that his patient might
have ended his life."We all know what a victim of
melancholia Mr. Sullivan is," he said,
"and consequently Mr. Sullivan's absence
is causing much apprehension among
his relatives."At the time he disappeared Repre-
sentative Sullivan had less than \$1 on
his person, although he is reputed to
be worth several million dollars.

FIRE LOSS TOTALS \$2,250,000

518 Buildings Were Destroyed at Hot
Springs, Ark.Hot Springs, Ark., Sept. 10.—Ac-
cording to a statement made public
here by J. S. Speed, manager of the
Arkansas actuarial bureau, the prop-
erty loss in the recent great fire was
\$2,250,000, with the insurance loss
placed at \$1,500,000.Thirty-two and one-half blocks were
burned, including 518 buildings. Of
these eighty-three were brick, twelve
veneered and 423 frame.

ELEVEN RAILWAYS PROTEST

Object to Legislation to Prevent
Wrecks.Chicago, Sept. 10.—Representatives
of eleven railroads sent a long tele-
gram to the commerce committee of
the senate and the house and to the
interstate commerce commission urg-
ing the members to make a full inves-
tigation of the causes of railroad ac-
cidents before undertaking any leg-
islation to prevent wrecks.The telegram stated that while all
railroads were replacing their wooden
cars with steel cars as fast as possi-
ble a law demanding that the wooden
cars be done away with at once would
cost the roads \$633,000,000.The roads also declared that rec-
ords showed that 92 per cent of the
number killed by the railroads each
year are not killed in train accidents,
but the greater number were tres-
passers.

CLOUDBURST IN SPAIN.

Santander, Spain, Sept. 10.—
A cloudburst flooded the town,
causing great damage. All the
surrounding districts are in-
undated. Bands of rescuers
are working in the streets,
waist high in water. So far
no loss of life is reported.

OSCAR W. UNDERWOOD.

Inclined to Enter Race
for Senator in Alabama.

Copyright by Harris & Ewing.

UNDERWOOD FOR SENATOR

Friends Urge House Leader to Enter
Alabama Race.Birmingham, Ala., Sept. 10.—Urged
to become a candidate for the United
States senatorial term beginning in
March, 1915, Representative Oscar
Underwood, chairman of the house
ways and means committee, sent the
following telegram from Washington
to Victor Henson of Birmingham:"I am disposed to enter the race,
but feel that my first duty is to stay
with the tariff bill until it becomes a
law."CHINESE SOLDIERS
TRAMPLE JAP FLAGPeking Officials Apparently Do
Not Desire War.Peking, Sept. 10.—The Japanese
consul at Nanking reported to the
Japanese legation here another anti-
Japanese incident at Nanking.As the consul's messenger, carry-
ing a small flag designating his na-
tionality, was traveling through the
city he was assaulted by Chinese
soldiers.The soldiers, according to the re-
port, took from him the Japanese flag
and, after tearing it up, trampled the
pieces under foot.The situation in Nanking appar-
ently does not alarm the Peking gov-
ernment. The Chinese officials, real-
izing the country's feebleness, express
a willingness to accede to any de-
mands that Japan may make.The hope of the Chinese, it is felt
in foreign circles here, reposes lar-
gely in the preamble of the Anglo-
Japanese alliance, government offi-
cials believing that Great Britain does
not desire Japanese aggression.

VALUATIONS IN MINNESOTA

Real and Personal Property Assessed
at \$1,390,936,007.St. Paul, Sept. 10.—The assessed
valuation of the real and personal
property in Minnesota, as returned
by county boards of equalization to
the state tax commissioner, is \$1,
390,936,007. The total assessment as
finally fixed by the tax commission
last year was \$1,365,676,469, and
the county board returns show an in-
crease of \$25,259,538. The total is
likely to be still further increased by
the tax commission, which has final
power to review and revise the assess-
ments.The new personal property assess-
ment is \$227,923,882, an increase over
1912 of \$12,640,967. The real assess-
ment of 1912, which was \$1,150,393,
544, is increased by the additions of
\$12,618,581 for new structures and
property added to the list, including
newly developed iron mines. Two-
thirds of this increase is furnished by
the three large counties of Hennepin,
Ramsey and St. Louis.The return of moneys and credits
this year is \$151,889,212, compared
with \$135,369,314 in 1912, an increase
of \$16,519,898.

THREE COUNTERFEIT NOTES

One of Spurious Issues Regarded as
Dangerous Deception.Washington, Sept. 10.—Discovery
of three counterfeit national bank
notes, one of them regarded as a
dangerous deception, was announced
by W. H. Moran, acting chief of the
United States secret service.The cleverest counterfeit is an imi-
tation of the \$20 issue of the Second
National bank of Baltimore.The other two counterfeits are a
\$5 note on the American National
bank of Nashville, Tenn., and a \$20
note on the Wisconsin National bank
of Milwaukee.

What We Want Daily.

Protein to make blood and muscle,
bone and brain and corresponding
quantities of fat, starch and sugar and
the like to be consumed in the body to
serve as a fuel to provide warmth and
give strength to the body. The protein
is found in meats, fish, eggs,
cheese, grain, flour and in beans
and peas and the like.MEXICAN POLICY
MAY BE COSTLYUncle Sam May Have to Foot
All Claims of Citizens.

MANY SOUTHERN VISITORS.

Reasonable Excursion Rates Bring
Many Persons to the Capital—Repre-
sentative Dies of Texas Attacks Pin-
chot's "Conservation Hobby"—Remedy
For National Extravagances.

By ARTHUR W. DUNN.

Washington, Sept. 10.—[Special.]—
The United States is likely to be called
upon to foot very expensive bills on
account of Mexican troubles. In the
opinion of Senator Lodge, who has had
long experience in foreign matters, the
United States is morally bound to pay
the just claims of citizens who leave
their property in Mexico and leave that
country on the advice of President
Wilson and before that on similar ad-
vice of President Taft.Of course first recourse will be
against Mexico, and no doubt when a
stable government is established in
that country this government will press
such claims with vigor, although it is
claimed by learned diplomats that all
rights to damages have been forfeited
because the government of the United
States refuses to permit arms and am-
munition to be shipped into Mexico
from American ports.Altogether it seems that we have
quite a mixup in Mexico, and in the
end there will be the inevitable bill for
some one to pay."South Waking Up."
It was a capital guide of an observ-
ing disposition who made the remark
that "the south is waking up." He
was speaking of large parties of ex-
cursionists and daily visitors at the
big lawmaking establishment and said
they were mostly from the south and
added:"The railroads see the benefit of
travel for the people and are giving
good excursion rates, so that people
come from the south, visiting Wash-
ington and the big commercial cities
farther north. Nearly all the Atlantic
City visitors buy their tickets so as to
have a few days in Washington and
see the capital of the nation. More
than ever before the southern people
are taking an interest in northern
things."Most Independent Man.
There are quite a number of inde-
pendent men in congress, but I rather
think that Martin Dies of Texas would
get the prize as the most independent
man in either house. If there is any
stage of any proceeding when he does
not say just what he thinks regardless
of parties or personal relations I have
not heard of it.Another independent man is Jerry
Donovan of Connecticut—that is,
Donovan is independent so far as
working with his party goes. So it
happened that when Dies was de-
nouncing conservation Donovan broke
in with an interruption not altogether
pertinent, which caused Dies to retort:
"Oh, my friend is always more or
less at a tangent. Sometimes he is at
a right angled triangle and sometimes
a direct triangle, but he is always
wrong.""Conservation Hobby."
All the work that Pinchot and his
cohorts have been doing Dies called
folly, even going so far as to speak of
it as a "conservation hobby." He said
that there was more need of conserv-
ing the soil, looking out for wheat,
oats, corn, cattle and mules, than in
taking care of the coal, timber and
other resources."You put lumber on the free list to
preserve the timber," he said, "and
yet lumber is the only commodity that
has not advanced in price in the last
decade. I would have the great timber,
coal and mineral resources of the
country opened to the people. Your
Pinchots and conservationists gener-
ally are theorists who are not making
a propaganda in the interests of the
American people."At the same time there are not very
many men in congress who would sup-
port the Texas congressman's views.

Road to Economy.

Everybody at one time or another
talks about economy, but we all
know that when it comes to taking
money from the federal government
there is no such thing as economy.
Talking on the income tax, Senator
Clapp of Minnesota said that he would
raise all the money necessary, save
such protection for industries needed
by a direct tax on the people, so that
they would know that they were pay-
ing for whatever was appropriated."The trouble in this country," said
the senator, "is that too many people
seem to think that the government is
an identity, a person, possessed of in-
come and revenue, out of which an
endless and ever swelling stream of
wealth can pour. I would have the
people realize that every dollar taken
from the treasury is wrung from their
pockets."Gardner Would Be Missed.
If it should so happen that Gardner
of Massachusetts were transplanted to
the governor's chair he would leave
quite a hole in the Massachusetts dele-
gation. With McCall in retirement
and Weeks in the senate the Bay State
already has lost a deal of prominence
in the house.

Question of Support.

"I can't live without your daughter!"
"Well, can you live without her fa-
ther?"—Judge.

MISS ELEANOR WILSON.

President's Daughter Unable
to Attend Wedding of Chum.

MISS WILSON CALLED HOME

President's Daughter Eleanor at Ath-
ens, Pa., to Be Bridesmaid.Athens, Pa., Sept. 10.—Miss Eleanor
Wilson, daughter of President Wilson,
who came here expecting to be a
bridesmaid at the wedding of her for-
mer schoolmate, Miss Nellie Kintner,
to Charles B. Kellogg, was unexpect-
edly summoned to the president's sum-
mer home and left for Cornish, N. H.,
at once. No further explanation as to
her sudden departure was made.Mr. and Mrs. Kellogg will visit Miss
Wilson in Cornish on their honeymoon
trip.EXPLORERS SLAIN IN

Over a Year.Winnipeg, Man., Sept. 10.—From
the mouths of Eskimos in the almost
inaccessible frozen North has come
the dramatic story of the murder of
Harry Radford, an American explorer,
and his companion, George Street.
The men, believed heretofore to have
been frozen to death, were killed at
Schultz lake, beyond the last outpost
of the Hudson Bay company in North-
ern Canada.News of the men's deaths came to
Winnipeg by mail, following the be-
lated confession by the natives who
accompanied them on their journey
northward in search of mineral de-
posits.These Eskimos, members of the
coast band trading for the Hudson
Bay company, deny that they were
concerned in the murders and accuse
the members of an inland tribe, with
whom the explorers had arranged to
travel northward from the lake. The
coast band natives kept silence for
more than a year, because they feared
the vengeance of the inland band
should the truth regarding the fate
of the explorers become known.

BRYAN SUES POLICE CHIEF

Secretary of State and Wife Seek
\$100 Damages.Jacksonville, Fla., Sept. 10.—The
secretary of state and Mrs. W. J. Bry-
an have filed suit against Chief of Po-
lice F. C. Roach for \$100 damages for
the detention of a \$550 diamond ring
identified as the property of Mrs. Bry-
an and held by the local police de-
partment.The suit is set for Oct. 6. The
ring in question was either lost or
stolen about a year ago and recovered
by the police from a negro in a local
hotel.

ELWELL BECOMES CANDIDATE

State Senator Enters Minnesota Guber-
natorial Race.Minneapolis, Sept. 10.—Backed by
the endorsement of the St. Anthony
Commercial club of Minneapolis, State
Senator James E. Elwell appeared in
the Republican arena as the newest
candidate for governor. Senator El-
well said, following the meeting at
which the endorsement was made, that
he had given his consent to the ac-
tion and that he would be a candidate
for the nomination at the primaries
next spring.The candidacy of Senator Elwell
comes as somewhat of a surprise to
Republican leaders and it is expected
it will complicate the gubernatorial
situation.

Pedigreed Dogs for \$1,400.

Chicago, Sept. 10.—Twenty-eight
pedigreed alfredale terriers, valued by
Francis G. Porter, bankrupt broker,
at \$25,000, were sold at auction for
\$1,400. The highest price for any dog
was for Colonel Isoney, champion,
which brought \$200. Most of the al-
fadales were bought by friends of Mr.
Porter.FIFTEEN PERISH
IN AIR MISHAPLABOR VIOLATIONS CLAIMED
Charged That Government Winks at
Abuses of Eight-Hour Law.Washington, Sept. 10.—Charges that
the government is winking at gross
violations of the eight-hour labor law
in the execution of federal contracts
led to the institution of an investiga-
tion by the Central Labor union.The American Federation of Labor
will lend its powerful aid in pressing
the inquiry. The committee proposes
to look into the alleged practices of
contractors and subcontractors said to
be working out their contracts with
the government at the expense of their
employees.E. L. Tucker, delegate to the Cen-
tral Labor union, was the authority
for the accusation that on much gov-
ernment work nine and even ten-hour
schedules were not uncommon. He
also charged that the work was being
done at a cost greater than it could
be done by the government itself.

STEEL TRAIN SAVES LIVES

Raised Rail Ditches the Pennsylvania
Flyer.New Madison, O., Sept. 10.—An all
steel train probably saved a score of
lives when the Pennsylvania flyer
was ditched by a raised rail near
Wylie's station, four miles west of
here, and thirty-five persons were in-
jured.Three, it is believed, were fatally
hurt and eighteen are in a hospital at
Richmond, Ind.

The "Alleged Gentleman."

This quaint notice was recently post-
ed in a Cardiff club: "If the alleged
gentleman who took three brushes from
Mr. —'s color box imagines they will
paint poultry without the assistance of
the master hand he is gravely mis-
taken and therefore may as well re-
turn them to their rightful owner."—
Pall Mall Gazette.

SENATE PASSES
TARIFF MEASUREApproves Democratic Revision
Bill by Vote of 44 to 37.

APPLAUSE GREETS RESULT

Roll Call Proceeds Quietly Until Sen-
ator La Follette Votes "Aye" as His
Name Is Called, When the First
Cheering Occurs—Senator Poindexter's
Vote Causes a Similar Demon-
stration.Washington, Sept. 10.—The Demo-
cratic tariff revision bill passed the
senate by a vote of 44 to 37 amid a
burst of applause that swept down
from crowded galleries and found its
echo on the crowded floor of the senate.Its passage was attended with sur-
prises in the final moments of the
voting when Senator La Follette, Re-
publican, cast his vote with the
Democrats and was joined a few mo-
ments later by Senator Poindexter,
Progressive.The Democrats had counted
throughout the long tariff fight upon
losing the votes of Senators Ransdell
and Thornton of Louisiana, Demo-
crats who voted against the bill be-
cause it would put sugar on the free
list.Until the names of Senators La
Follette and Poindexter were called,
however, no one knew definitely the
stand they would take and their votes
were greeted with applause.President Wilson expressed grati-
fication over the end of the long
struggle in the senate.Senator Simmons, chairman of the
finance committee, who had piloted
the bill through the finance com-
mittee, the Democratic caucus and
the senate, predicted that its pas-
sage would bring immediate stimulus
to the business of the country.

Lower Than House Rates.

As it passed the senate the tariff
bill represents an average reduction
of more than 4 per cent. from the
rates of the original bill that passed
the house and nearly 20 per cent
from the rates of the existing law.In many important particulars the
senate has changed the bill that passed
the house, and a conference com-
mittee of the two houses will begin
work Wednesday or Thursday to ad-
just these differences.Leaders of both houses predict that
the conference will consume less
than two weeks.The senate endeavored to hasten
the bill on its passage to the White
House by naming its members of the
conference as soon as the bill passed.Vice President Marshall appointed
Senators Simmons, Stone, Williams,
and Johnson, Democrats, and Sen-
ators Penrose, Lodge and La Follette,
Republicans, as the senate conferees.Senator Stone withdrew from the
committee and Senator Shively was
appointed in his place.The house conferees, it was report-
ed, will be Representatives Under-
wood, Kitchen and Rainey, Democrats,
and Payne and Fordney, Republicans.Senators Clapp and Nelson of Min-
nesota voted against the bill, Senator
Gronna of North Dakota was absent
and Senator Crawford of South Da-
kota did not vote.Senators Cummins and Kenyon of
Iowa, Senator McCumber of North
Dakota and Senator Stephenson of
Wisconsin voted no.

Offers Final Amendments.

During the closing hours of debate
Senator La Follette had been the cen-
ter of interest proposing final amend-
ments to the cotton and wool sched-
ules and discussing some features of
the bill which he deemed favorable.When the vice president put the
bill upon its passage Senator Ashurst,
first on the roll, shouted "aye" and
the roll call proceeded deliberately un-
til the clerk called "La Follette."The Wisconsin senator, seated in
the front row, hesitated a moment.
His head was bowed and resting on
his hand. He leaned forward a trifle
and vigorously answered "aye."Instantly the applause broke from
the galleries and senators on the Demo-
cratic side joined in the enthusiastic
hand clapping, nearly every Democrat
on the floor participating in the brief
but vigorous demonstration.When the name of Senator Poindex-
ter, the only Progressive senator, was
reported and contributed his vote for
the bill the applause was renewed.When the vote had been announced
Senator Gallinger of New Hampshire,
the leader of the minority, was re-
cognized and congratulated Senator
Simmons for his "courteous, kindly
and considerate manner" in the con-
duct of the debate.He said he knew of no tariff fight
characterized by such good feeling
throughout and attributed it to the
personality of Senator Simmons.Senator Simmons expressed his ap-
preciation."I am greatly gratified that the bill
has passed," he said, "and I think
that it will not be long in conference.
In my opinion there has been some
stagnation of business in the country
pending the action of the senate. Now
I believe that there will be an im-
mediate stimulus to business and that
in the end we will have better times in
this country."Not Their Exclusive Specialty.

WATCHES SUNSET FROM HILL

Slayer of Stanford White Enjoys the
First Outing of the Kind in Nearly
Seven Years—Lawyers May Desire
His Presence in Montreal on Thurs-
day.Coaticook, Que., Sept. 10.—Harry
K. Thaw stood on a hill overlooking
Coaticook and watched the setting
sun. High grass brushed his knees,
birds fluttered in a patch of woods
nearby.It was the first outing of his kind
the slayer of Stanford White has had
in nearly seven years.In the asylum at Matteawan from
which he escaped Thaw had to take
his exercise in a courtyard, but when
he asked for an airing his guards led
him up the hill to the west of the
village and for half an hour they
stumbled together through the tangled
grass and weeds.Reports reached Coaticook from
Montreal that Thaw's lawyers might
desire his presence there on Thurs-
day, four days before he is to be
brought before the king's bench on
the writ of habeas corpus.Thaw said he had received a tele-
phone message from his mother, Mrs.
Mary Copley Thaw, and his sister,
Mrs. George Lauder Carnegie, now in
Montreal.A musical comedy company en-
route to Sherbrooke stopped at Coati-
cook for twenty minutes. Ten girls
shrieked messages of good will to
Thaw, turkey trotted up and down
the station platform for his edifica-
tion and cheered when the train pulled
out.Thaw stood at his window, laugh-
ing, clapping his hands and nodding
approval.

FRIENDS FEAR HE IS DEAD

Timothy D. Sullivan Missing Since
Last Tuesday.New York, Sept. 10.—While friends
and relatives of Representative Tim-
othy D. Sullivan, who disappeared from
the home of his brother Tuesday
last, expressed belief that Big Tim, as
he is known along the Bowery, is
hiding in New York and laughing at
the efforts being made to find him, it
became known that they are apprehen-
sive concerning his safety.Dr. Herman L. Reis, Sullivan's phy-
sician, feared that his patient might
have ended his life."We all know what a victim of
melancholia he is," he said, "and
consequently Mr. Sullivan's absence
is causing much apprehension among
his relatives."At the time he disappeared Repre-
sentative Sullivan had less than \$1
on his person, although he is reputed to
be worth several million dollars.

FIRE LOSS TOTALS \$2,250,000

518 Buildings Were Destroyed at Hot
Springs, Ark.Hot Springs, Ark., Sept. 10.—Ac-
cording to a statement made public
here by J. S. Speed, manager of the
Arkansas actuarial bureau, the prop-
erty loss in the recent great fire was
\$2,250,000, with the insurance loss
placed at \$1,500,000.Thirty-two and one-half blocks were
burned, including 518 buildings. Of
these eighty-three were brick, twelve
venered and 423 frame.

ELEVEN RAILWAYS PROTEST

Object to Legislation to Prevent
Wrecks.Chicago, Sept. 10.—Representatives
of eleven railroads sent a long tele-
gram to the commerce committee of
the senate and the house and to the
interstate commerce commission ur-
ging the members to make a full in-
vestigation of the causes of railroad
accidents before undertaking any leg-
islation to prevent wrecks.The telegram stated that while all
railroads were replacing their wooden
cars with steel cars as fast as pos-
sible a law demanding that the wooden
cars be done away with at once would
cost the roads \$533,000,000.The roads also declared that rec-
ords showed that 92 per cent of the
number killed by the railroads each
year are not killed in train accidents,
but the greater number were tres-
passers.

CLOUDBURST IN SPAIN.

Santander, Spain, Sept. 10.—
A cloudburst flooded the town,
causing great damage. All the
surrounding districts are in-
undated. Bands of rescuers
are working in the streets,
waist high in water. So far
no loss of life is reported.

OSCAR W. UNDERWOOD.

Inclined to Enter Race
for Senator in Alabama.

Copyright by Harris & Ewing.

UNDERWOOD FOR SENATOR

Friends Urge House Leader to Enter
Alabama Race.Birmingham, Ala., Sept. 10.—Urged
to become a candidate for the United
States senatorial term beginning in
March, 1915, Representative Oscar
Underwood, chairman of the house
ways and means committee, sent the
following telegram from Washington
to Victor Henson of Birmingham:"I am disposed to enter the race,
but feel that my first duty is to stay
with the tariff bill until it becomes a
law."CHINESE SOLDIERS
TRAMPLE JAP FLAGPeking Officials Apparently Do
Not Desire War.Peking, Sept. 10.—The Japanese
consul at Nanking reported to the
Japanese legation here another anti-
Japanese incident at Nanking.As the consul's messenger, carry-
ing a small flag designating his na-
tionality was traveling through the
city he was assaulted by Chinese
soldiers.The soldiers, according to the re-
port, took from him the Japanese flag
and, after tearing it up, trampled the
pieces under foot.The situation in Nanking appar-
ently does not alarm the Peking gov-
ernment. The Chinese officials, real-
izing the country's feebleness, express
a willingness to accede to any de-
mands that Japan may make.The hope of the Chinese, it is felt
in foreign circles here, reposes large-
ly in the preamble of the Anglo-
Japanese alliance, government offi-
cials believing that Great Britain does
not desire Japanese aggression.

VALUATIONS IN MINNESOTA

Real and Personal Property Assessed
at \$1,390,936,007.St. Paul, Sept. 10.—The assessed
valuation of the real and personal
property in Minnesota, as returned
by county boards of equalization to
the state tax commissioner, is \$1,
390,936,007. The total assessment as
finally fixed by the tax commission
last year was \$1,365,676,469, and the
county board returns show an in-
crease of \$25,259,538. The total is
likely to be still further increased by
the tax commission, which has final
power to review and revise the assess-
ments.The new personal property assess-
ment is \$227,923,882, an increase over
1912 of \$12,640,967. The real assess-
ment of 1912, which was \$1,150,393,
544, is increased by the additions of
\$1,218,581 for new structures and
property added to the list, including
newly developed iron mines. Two-
thirds of this increase is furnished by
the three large counties of Hennepin,
Ramsey and St. Louis.The return of moneys and credits
this year is \$151,889,212, compared
with \$135,369,314 in 1912, an increase
of \$16,519,898.

THREE COUNTERFEIT NOTES

One of Spurious Issues Regarded as
Dangerous Deception.Washington, Sept. 10.—Discovery
of three counterfeit national bank
notes, one of them regarded as a
dangerous deception, was announced
by W. H. Moran, acting chief of the
United States secret service.The cleverest counterfeit is an imi-
tation of the \$20 issue of the Second
National bank of Baltimore.The other two counterfeits are a
\$5 note on the American National
bank of Nashville, Tenn., and a \$20
note on the Wisconsin National bank
of Milwaukee.

What We Want Daily.

Protein to make blood and muscle,
bone and brain and corresponding

the like to be consumed in the body to
serve as a fuel to provide warmth and
give strength to the body. The pro-
tein is found in meats, fish, eggs,
cheese, gluten in flour and in beans
and peas and the like.MEXICAN POLICY
MAY BE COSTLYUncle Sam May Have to Foot
All Claims of Citizens.

MANY SOUTHERN VISITORS.

Reasonable Excursion Rates Bring
Many Persons to the Capital—Rep-
resentative Dies of Texas Attacks Pin-
chot's "Conservation Hobby"—Rem-
edy for National Extravagances.

By ARTHUR W. DUNN.

Washington, Sept. 10.—[Special.]—
The United States is likely to be called
upon to foot very expensive bills on
account of Mexican troubles. In the
opinion of Senator Lodge, who has had
long experience in foreign matters, the
United States is morally bound to pay
the just claims of citizens who leave
their property in Mexico and leave that
country on the advice of President
Wilson and before that on similar ad-
vice of President Taft.Of course first recourse will be
against Mexico, and no doubt when a
stable government is established in
that country this government will press
such claims with vigor, although it is
claimed by learned diplomats that all
rights to damages have been forfeited
because the government of the United
States refuses to permit arms and am-
munition to be shipped into Mexico
from American ports.Altogether it seems that we have
quite a mixup in Mexico, and in the
end there will be the inevitable bill for
some one to pay."South Waking Up."
It was a capital guide of an observ-
ing disposition who made the remark
that "the south is waking up." He
was speaking of large parties of ex-
cursionists and daily visitors to the
big lawmaking establishment and said
they were mostly from the south and
added:"The railroads see the benefit of
travel for the people and are giving
good excursion rates, so that people
come from the south, visiting Wash-
ington and the big commercial cities
farther north. Nearly all the Atlantic
City visitors buy their tickets so as to
have a few days in Washington and
see the capital of the nation. More
than ever before the southern people
are taking an interest in northern
things."Most Independent Man.
There are quite a number of inde-
pendent men in congress, but I rather
think that Martin Dies of Texas would
get the prize as the most independent
man in either house. If there is any
stage of any proceeding when he does
not say just what he thinks regardless
of parties or personal relations I have
not heard of it.Another independent man is Jerry
Donovan of Connecticut—that is,
Donovan is independent so far as
working with his party goes. So it
happened that when Dies was de-
nouncing conservation Donovan broke
in with an interruption not altogether
pertinent, which caused Dies to retort:"Oh, my friend is always more or
less at a tangent. Sometimes he is at
a right angled triangle and sometimes
a direct triangle, but he is always
wrong.""Conservation Hobby."
All the work that Pinchot and his
cohorts have been doing Dies called
folly, even going so far as to speak of
it as a "conservation hobby." He said
that there was more need of conserv-
ing the soil, looking out for wheat,
oats, corn, cattle and mules, than in
taking care of the coal, timber and
other resources."You put lumber on the free list to
preserve the timber," he said, "and
yet lumber is the only commodity that
has not advanced in price in the last
decade. I would have the great timber,
coal and mineral resources of the
country opened to the people. Your
Pinchots and conservationists gener-
ally are theorists who are not making
a propaganda in the interests of the
American people."At the same time there are not very
many men in congress who would sup-
port the Texas congressman's views.

Road to Economy.

Everybody at one time or another
talks about economy, but we all
know that when it comes to taking
money from the federal government,
there is no such thing as economy.
Talking on the income tax, Senator
Clapp of Minnesota said that he would
raise all the money necessary, save
such protection for industries needed,
by a direct tax on the people, so that
they would know that they were pay-
ing for whatever was appropriated."The trouble in this country," said
the senator, "is that too many people
seem to think that the government is
an identity, a person, possessed of in-
come and revenue, out of which an
endless and ever swelling stream of
wealth can pour. I would have the
people realize that every dollar taken
from the treasury is wrong from their
pockets."

Gardner Would Be Missed.

If it should so happen that Gar-
dner of Massachusetts were transplanted
to the governor's chair he would leave
quite a hole in the Massachusetts de-
legation. With McCall in retirement
and Weeks in the senate the Bay State
already has lost a deal of prominence
in the house.

Question of Support.

"I can't live without your daughter?"
"Well, can you live without her fa-
ther?"—Judge.

MISS ELEANOR WILSON.

President's Daughter Unable
to Attend Wedding of Chum.

MISS WILSON CALLED HOME

President's Daughter Eleanor at Ath-
ens, Pa., to Be Bridesmaid.Athens, Pa., Sept. 10.—Miss Eleanor
Wilson, daughter of President Wilson,
who came here expecting to be a
bridesmaid at the wedding of her for-
mer schoolmate, Miss Nellie Kintner,
to Charles B. Kellogg, was unexpect-
edly summoned to the president's sum-
mer home and left for Cornish, N. H.,
at once. No further explanation as to
her sudden departure was made.Mr. and Mrs. Kellogg will visit Miss
Wilson in Cornish on their honeymoon
trip.EXPLORERS SLAIN IN
NORTH BY ESKIMOSNatives Maintain Silence for
Over a Year.Winnipeg, Man., Sept. 10.—From
the mouths of Eskimos in the almost
inaccessible frozen North has come
the dramatic story of the murder of
Harry Radford, an American explor-
er, and his companion, George Street.
The men, believed heretofore to have
been frozen to death, were killed at
Schultz lake, beyond the last outpost
of the Hudson Bay company in North-
ern Canada.News of the men's deaths came to
Winnipeg by mail, following the be-
lated confession by the natives who
accompanied them on their journey
northward in search of mineral de-
posits.These Eskimos, members of the
coast band trading for the Hudson
Bay company, deny that they were
concerned in the murders and accuse
the members of an inland tribe, with
whom the explorers had arranged to
travel northward from the lake. The
coast band natives kept silence for
more than a year, because they fear-
ed the vengeance of the inland band
should the truth regarding the fate of
the explorers become known.

BRYAN SUES POLICE CHIEF

Secretary of State and Wife Seek
\$100 Damages.Jacksonville, Fla., Sept. 10.—The
secretary of state and Mrs. W. J. Bry-
an have filed suit against Chief of
Police F. C. Roach for \$100 damages for
the detention of a \$550 diamond ring
identified as the property of Mrs. Bry-
an and held by the local police de-
partment.The suit is set for Oct. 6. The
ring in question was either lost or
stolen about a year ago and recovered
by the police from a negro in a local
hotel.

ELWELL BECOMES CANDIDATE

State Senator Enters Minnesota Guber-
natorial Race.Minneapolis, Sept. 10.—Backed by
the endorsement of the St. Anthony
Commercial club of Minneapolis, State
Senator James E. Elwell appeared in
the Republican arena as the newest
candidate for governor. Senator El-
well said, following the meeting at
which the endorsement was made, that
he had given his consent to the ac-
tion and that he would be a candidate
for the nomination at the primaries
next spring.The candidacy of Senator Elwell
comes as somewhat of a surprise to
Republican leaders and it is expected
it will complicate the gubernatorial
situation.

Chicago, Sept. 10.—Twenty-eight
pedigreed alfrede terriers, valued by
Francis G. Porter, bankrupt broker,
at \$25,000, were sold at auction for
\$1,400. The highest price for any dog
was for Colonel Isonoy, champion,
which brought \$200. Most of the al-
frede were bought by friends of Mr.
Porter.FIFTEEN PERISH
IN AIR MISHAPLABOR VIOLATIONS CLAIMED
Charged That Government Winks at
Abuses of Eight-Hour Law.Washington, Sept. 10.—Charges that
the government is winking at gross
violations of the eight-hour labor law
in the execution of federal contracts
led to the institution of an investiga-
tion by the Central Labor union.The American Federation of Labor
will lend its powerful aid in pressing
the inquiry. The committee proposes
to look into the alleged practices of
contractors and subcontractors said to
be working out their contracts with
the government at the expense of their
employees.E. L. Tucker, delegate to the Cen-
tral Labor union, was the authority
for the accusation that on ten-hour
government work nine and even ten-hour
schedules were not uncommon. He
also charged that the work was being
done at a cost greater than it could
be done by the government itself.

STEEL TRAIN SAVES LIVES

Raised Rail Ditches the Pennsylvania
Flyer.New Madison, O., Sept. 10.—An all
steel train probably saved a score of
lives when the Pennsylvania flyer
was ditched by a raised rail near
Wyllie's station, four miles west of
here, and thirty-five persons were in-
jured.Three, it is believed, were fatally
hurt and eighteen are in a hospital at
Richmond, Ind.

The "Alleged Gentleman."

This quaint notice was recently post-
ed in a Cardiff club: "If the alleged
gentleman who took three brushes from
Mr. —'s color box imagines they will
paint poultry without the assistance of
the master hand he is gravely mis-
taken and therefore may as well re-
turn them to their rightful owner."
—Pall Mall Gazette.

The latest substitute for a rain coat is a copy of a daily paper. This device was worn by one of the passengers on the train going north while going over town for a lunch.

Try a load of millwood. Phone 359L.—Advt. 71144

Mr. A. Stafford has taken Mrs. Myrtle Lee's little boy to St. Paul for an operation for adenoids and other troubles. Mr. Stafford will see a doctor in regard to his own health also.

The trains are all more or less off their schedules the past few days. Heavy freight traffic is causing it. Yesterday the train from Duluth was held up for over an hour at the draw bridge there.

Order your wall paper early from D. M. Clark & Co.—Advt. 249tf

A. G. Hawley, of Rose Hill, Iowa, was in the city today. Mr. Hawley owns lands in Little Pine township and he came up to inspect it. He seemed sanguine that iron would be found in the Little Pine country.

Awnings put up by D. M. Clark & Co.—Advt. 241-tf

Some of our citizens are wondering if it would not be a good thing to procure a special train that they might conveniently attend the county fair at Pequot. The fair begins September 17 and lasts for three days.

Mrs. A. E. Losey on Tuesday evening entertained a few friends for Mrs. Westfall, of Lodi, Cal. Those present were Mrs. R. R. Wise, Mrs. Westfall, Mrs. I. T. Dean, Mrs. Jennie Grewcox and Mrs. Irma Camp Hartley.

What will one dollar do?
What will one dollar do?
What will one dollar do?
What will one dollar do?
Watch and see.

Mrs. H. A. Carmichael, 619 North Sixth street, is in a local hospital suffering from an attack of stomach trouble. Mrs. P. Clare, her mother came from St. Paul yesterday to be with her during the crisis of her sickness.

Mary A. Dillon, of the St. Paul Dispatch and the St. Paul Pioneer Press, writes the musical club that she is preparing a story about the clubs of Brainerd and their work. Miss Dillon is the editor of the woman's department of these papers.

Homes \$50 to \$100 cash and \$10 to \$20 monthly. Nettleton.—Advt. 81dtf-wtf

J. F. Smart, county auditor, is in receipt of a letter from E. H. Anderson, of the New York City public library, asking him for any publications the county may issue. These are to be kept on file there. Mr. Smart sent the report of the inspector of mines and the financial statement.

Mueson Sanitary Wall Plaster is sold only by D. M. Clark & Co.—Advt. 249tf

The billiard and pool tables at the Y. M. C. A. have been repaired new covers have been put on and their general attractiveness improved. The cues have been fitted with ivory tips, spliced and lengthened. Gussie Small and the secretary D. T. Lawrence did most of the work.

The downpour of the last few hours has taxed the capacity of the sewers to the utmost. It has been effective in stopping building operations, street paving and out-of-door work. The low places in the streets are full of standing water and to cross the streets in places demands high rubbers.

Store your move and household goods with D. M. Clark & Co.—Advt.

Workmen laying the water mains between South Sixth and Seventh streets on Oak street are nearing the completion of their task. They discovered that some of the old pipe laid a number of years ago, was down

about seventeen feet. This was due to the filling in of the street from time to time.

Dog owners, motorcyclists, with a propensity for speeding and bicyclists who prefer the sidewalk to the street are all under the surveillance of the police these latter days. The dog licenses are being slowly paid, speeding is only done "under cover" and the unhappy bicyclists lead their lowly steeds around the sandy places.

Work on the new building on the corner of Laurel and Sixth streets is gradually progressing. The retaining walls are in and the foundation is started. H. J. Hanson, of St. Paul, is the manager. I. U. White is looking after the interest of the owner, J. M. Hayes. With this building and the one contemplated on the opposite corner, Laurel street will show a wonderful improvement.

\$10 in gold to be given away free Sept. 15 at the Iron Exchange Clothing store to person holding the lucky number. A ticket given with every \$1 purchase.—Advt. 80tts

The officers and children of the Presbyterian church Bible school have decided to change the hour of meeting. From this coming Sabbath the time will be 9:30 o'clock instead of twelve. It was thought that there would be a greater chance to get a larger number of students and parents at this earlier hour. The church service will be changed to 10:45. The evening service is changed to 7:45.

The assistant secretary of the Y. M. C. A., C. E. Leak, wants to meet with the boys of Brainerd Friday afternoon at 4:30. All boys who are between twelve and sixteen years of age are wanted at this conference. This is irrespective of whether they are members of the association or not. The subject of the conference will be out-of-door sports, hikes, camping out, picnics, sleigh rides and the like. Committees will be appointed.

Schmidt's bottle odor, famous for quality. Order a case. Telephone 164. John Coates Liquor Co.—Advt.

John Johnson came down from Hubert yesterday. He has been getting out lumber near Hubert. His company, the Lakewood Park Saw Mill Co., has about 90,000 feet of lumber on the ground. They will begin shipping soon to the Mahlum Lumber Co., of this city. The members of the company are the three Johnson Brothers, John, Nels and Swan Johnson and Samuel Allston. They will be through sawing in about a month.

All of our dry goods, hats, caps, shoes, etc. at wholesale prices, until September 18th. G. D. Cleverger, Dykeman Block.—Advt. 79tf

"Talk about hard luck," said P. T. Brown, "it was certainly handed to me last week. I was going to St. Paul and I told the wife to buy me a hat. She walked down town and wishing to please me, she brought back two, so I could take my choice. The bridge is out of commission and she walked along the railway track. She fell on a frog, sprained her wrist and cracked the top of one of the cadies and dented the other. So I had to pay for two hats."

"Tales of Honey and Tar" From West and East

Wm. Lee, Paskenta, Calif., says: "It gives universal satisfaction and I use only Foley's Honey and Tar Compound for my children." E. C. Rhodes, Middleton, Ga., writes: "I had a racking lagrippe cough and finally got relief taking Foley's Honey and Tar Compound." Use no other in your family and refuse substitutes. For sale by H. P. Dunn.—Advt. mwtf

Old Time Advice to Doctors.

There is an old manuscript in the National Library at Paris which has the following advice to physicians: "On approaching the patient you should assume a calm expression and avoid any gesture of greed or vanity, greet those who salute you with a humble voice and sit down when they do. Then, turning to the sick person, ask him how he is. To the patient you promise to cure, but immediately on leaving the room you say to the relatives that the disease is grave. The result will be that if you cure him your merit is greater, and you will receive the greater praise and fee, while if he dies they will say that you had no hope from the first."

Postmaster Antoine Deloria, Gardiner, Mich., speaks for the guidance of those troubled with kidney and bladder irregularities and says: "From my own experience I can recommend Foley Kidney Pills. My father also was cured of kidney disease, and many neighbors were cured by Foley Kidney Pills." For sale by H. P. Dunn.—Advt. mwtf

REGRET.

Regret, in order to be fruitful, has to be optimistic in its offspring. It is right and proper for one to label oneself a miserable wretch only if the very act of labeling encourages one to determine that the label shall become a label.

Kidney Trouble Began With a Lane Back

J. L. Hankel, 915 Eighth St., Lincoln, Ill., was recently cured of a bad case of kidney trouble that started with a lane back, and says: "I am certainly thankful in getting a cure of my kidney trouble by using Foley Kidney Pills." Try them yourself. For sale by H. P. Dunn.—Advt. mwtf

SCHOOL MATTERS ARE REVIEWED

Normal Training Department is Established with Miss Addie M. Clark in Charge

MANUAL TRAINING ROOM READY

Enrollment in the Schools Now Greater Than the Highest Last Year

The work of the schools of the city has settled down to a regular program and everything is going nicely. The teaching force is complete and the personnel is satisfactory. A number of improvements have been made in the buildings. At the Washington there has been a change made in the office arrangements, the stock room has been put down stairs and is connected by a trap door with the supply room up stairs.

The basement in the south wing has been adapted for sewing and manual training.

On the second floor a lavatory has been provided for the girls. The cloak room off from the chemical laboratory and the room formerly used for the principal's office have been converted into a recitation room.

The enrollment for the high school is large. For the first week of the present year it is twenty more than the highest number last year. This does not include twenty students who are enrolled for the normal department.

Miss Addie M. Clark has been engaged for this latter department. She is a graduate of the advanced course of the state normal at Mankato, also a graduate of the university. She has had experience in rural, graded and semi-graded schools. She will be here next Monday to take charge.

Last Tuesday afternoon the normal training girls were detailed for observation work with the lower grade teachers in the several schools.

The manual training room will soon be ready for its formal opening. The training room is fitted up with twenty benches made of select hard maple and each bench has two steel vises. The apparatus has not all arrived. This training will be required of all seventh and eighth grade male students but will be elective for those in the high school.

The enrollment in the north side school is larger than last year. Last year in the Whittier building it was 189 and this year it is 202.

Work in the cooking and sewing department is elective but so popular has this science become that the time put in by each girl had to be cut down to accommodate the increased number. Besides the actual practice a text book is used to study the theoretical side. Miss Moreland, the instructor, is assisted by cadets in the normal training branch.

C. M. Grey is the instructor in the commercial department. He is a graduate of the state normal and the Cleary Business College. He came from Ipsalanti, Michigan. This course is appealing to many.

With the present rate of growth of our schools it will not be long before the uncompleted wing of the high school will have to be completed. In the architectural plan this building

was ultimately to extend out to Oak street. The growth of the city is bringing about the necessity for its fulfillment.

BRAINERD GARDENS ARE FINE

They Reduce the High Cost of Living and Bring Joy and Health to the Owners

The gardens of the city have produced luxuriantly this past season. There has been no frost to hurt them, so even at this late date many are living from them.

The Homecroft enthusiasts insist upon everyone who can do it by hook or crook planting a little patch of ground. They have valuable statistics up their sleeve as to the reduction of the cost of living by having even a small garden. Moreover they advise what has been proven the most valuable to plant, how to plant them and how to conserve space.

Homecrofting is now a science. The time was when these homecrofters had to debate with people who only had small plots that could be used for garden. Had to "show them" But there is no debate any longer. The small areas such as the back part of twenty-five foot lots have proven their value. And it only took one season to do it. One man whose grocery bill was twenty-five dollars a month without a garden found it was reduced to five with a garden.

This homecroft movement has come about in this city without agitation. There are gardens here that would elicit the praise of the most expert gardeners. They have enabled many to live like peers of the realm. They have afforded recreation for shop men, clerks and business men. The cliff-dwellers in some of our flat buildings could have a garden by using some vacant lot nearby.

Homecrofting reduces the price of living, affords wholesome recreation, and helps to make the town more attractive for there is nothing more appealing to the eye than a nicely arranged garden.

P. S.—The writer has no garden. He is at the mercy of his friends. He needs, melons, tomatoes, rutabagas, pumpkins, cabbage, squash and potatoes. He has a good cellar.

Fourth Ward Citizens Attention

A mass meeting of the citizens of the Fourth ward will be held in the Fourth ward house tonight at 7:30 P. M., for the purpose of considering certain amendments to the Street Railway franchise and acting upon the same.

All Fourth ward citizens are cordially and earnestly invited to be present, and especially those citizens who signed petitions at the previous Fourth ward meeting are requested to be present.—Adv. 1t

New Auto Garage

W. H. Elliot has leased the Ezra Smith garage on 6th street south and has reopened it and is prepared to do all kinds of auto repairing and overhauling. Mr. Elliot has had considerable experience with driving, demonstrating and repairing machines here and at Minneapolis.

Wholesale to Consumer

Transcendent Apples, peck 25c. Wild plums for canning, peck, 50c. Minnesota Apples, peck, 25c. 30 bars Santa Clause Soap \$1.00. Best Union Pride flour, 100 lbs., \$2.40. L. J. Cale.—Adv. 8012

HARRY THAW IS AT LARGE

Special to Dispatch:

Averill, Vermont, Sept. 10.—Harry K. Thaw is at large again. The Canadian Immigration officials, after deporting him from Canada, crossing the International boundary early this morning, set Thaw free here. No officers were present to arrest him and Thaw hired an automobile and set out toward Canaan of Beecher Falls, evidently intending to try to get back into Canada or remain in hiding.

FUGITIVE IS CAPTURED

Special to Dispatch:

Colebrook, N. H., Sept. 10.—Harry Thaw was captured here three hours after being put over the boundary line into Vermont. He is being held here as a fugitive from justice.

NO MORE RIVALRY

Battle Lake Phone Co. Closes Village System and Connects Country Lines With Northwestern

George F. Beatty, manager for the Northwestern Telephone Co., here has closed a contract with the Battle Lake Mutual Exchange Co. whereby that company will close up its exchange in Battle Lake village and connect its long distance lines with the Northwestern system operating through the Northwestern switchboard. The Battle Lake company has heretofore operated a village telephone system in Battle Lake, with about fifty miles of line through the adjacent country and about 150 subscribers. The Northwestern has also operated a village telephone system in Battle Lake, and the lines have not connected. The two systems proved a nuisance, as two telephone systems always do and the new arrangement will enable Battle Lake people to get complete service with only one phone, and also to connect direct with all parts of the outside world. It will also enable subscribers here and elsewhere to connect directly with the farmers living in the vicinity of Battle Lake. The change will be made about October 1, 1913.—Fergus Falls Daily Journal, September 8, 1913.—Adv.

MOTHER! THE CHILD IS COSTIVE, BILIOUS

Don't hesitate. A laxative is necessary if tongue is coated, breath bad or stomach sour

Give "California Syrup of Figs" at once—a teaspoonful today often saves a sick child tomorrow.

If your little one is out-of-sorts, half-sick, isn't resting, eating and acting naturally—look, Mother! see if the tongue is coated. This is a sure sign that it's little stomach, liver and bowels are clogged with waste. When cross, irritable, feverish, stomach sour, breath bad or has stomach-ache, diarrhea, sore throat, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated poison, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again.

Mothers can rest easy after giving this harmless "fruit laxative," because it never fails to cleanse the little one's liver and bowels and sweeten the stomach and they dearly love its pleasant taste. Full directions for babies, children of all ages and for grown-ups printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs;" then see that it is made by the "California Fig Syrup Company." Don't be fooled.—Adv.

A PRIZE PICNIC

Winning Classes of M. E. Sunday School Enjoy a Table Dinner—Losers Get Hand-out

A picnic of unusual interest and plan was enjoyed by the Bible school of the First Methodist Episcopal church last evening on the church lawn. In the beginning of the summer months the proposition was made to the school that the five classes showing the best average attendance during the three summer months would be treated to a surprise, and the picnic last night was the surprise. The winning classes are in the order named: "Epworth," "Enterprise," Mr. Cartwright's, "Perseverance Band" and "Buds of Promise." Tables were set on the lawn for the winning classes and they received their banquet in regal style while all the others were seated on the ground and received a "hand-out" in a common paper bag. Ice cream was served to the winners in dishes at the tables while the losers took theirs in very poorly filled cones. The spirit of fun and good cheer prevailed it all.

After supper the crowd adjourned to the church where a program of charades was given. The Superintendent, Mr. H. F. Michael, was given an ovation when he stepped to the front to quiet the crowd for the program. There were about 200 present.

MUSIC AND DRAMA

Edison Talking Pictures

Braintree citizens will be given a chance to pass their judgement on the genuine Thomas A. Edison talking pictures at the Braintree opera house, Saturday and Sunday, September 13 and 14, when Edison's own company carrying 3 expert operators from his factory in East Orange, N. J., will present "The Wizard's" latest and greatest invention. The subjects here include vaudeville, drama, opera and musical comedy, also a genuine minstrel show with 35 blackface comedians who sing, dance and play musical instruments and as a finale the three old War veterans made famous in the "Spirit of '76" painting appear with fire and drum.

MARTIN BOWERS

The Tramp Comedian with "HANS HANSON" at the Braintree opera house, Thursday, September 11, 1913

The daughter of A. Mitchell, Bagdad, Ky., had a bad case of kidney trouble and they feared her health was permanently impaired. Mr. Mitchell says: "She was in terrible shape but I got her to take Foley Kidney Pills and now she is completely cured." Women are more liable to have kidney trouble than men and will find Foley Kidney Pills a safe dependable and honest medicine. For sale by H. P. Dunn.—Adv. mwt

Air Resistance.

The effects of air resistance are well shown in the twelve and one-half mile Sanborn tunnel, where an exceptionally high amount of energy is required for running the electric trains. The tunnel—which is fifteen feet wide and eighteen high, with a sectional area of 250 square feet—has a ventilating current of 3,500 cubic feet of air per second, maintained by two large blast fans at the Brigue end and two exhaust fans at Iselle. B. Killebrennan, Swiss engineer, finds that trains going with this current encounter less resistance than in open air up to fifteen and one-half miles an hour, but at higher speeds or in the opposite direction the resistance is much greater than outside. Coasting by gravity down the seven per 1,000 maximum gradient, a train, even though going with the current, cannot exceed thirty-five miles an hour on account of the braking by the air.

You who require the best and purest medicine see that you get Foley's Honey and Tar Compound in preference to any other for all coughs, colds, croup, asthma, hoarseness, tickling throat and other throat and lung troubles. It is a strictly high grade family medicine, and only approved drugs of first quality are used in its manufacture. It gives the best results, and contains no opiates.—For sale by H. P. Dunn.—Adv. mwt

New Line Rain Coats Large Line Umbrellas For the Fall Wet Weather

We have many wet days ahead of us. The fall always brings them. We will help protect you for a little cost.

We have just added a new lot of rain coats—pretty as well as serviceable and for children as well as for ladies. Then our umbrella line begins at 50c, \$1.00, \$1.25, \$1.50 and up to \$7.50. Let us show you.

"MICHAEL'S" W.B. Corsets

Give the figure an uncorseted effect, with grace and suppleness, and fashionable "straight lines."

Styles, lengths and sizes for every figure, from the young, slender miss, to the well-developed matron. Batiste and Coutil, tastefully trimmed. Boning guaranteed not to rust.

Price \$1.00, \$1.50, \$2.00 and \$2.50.

"MICHAEL'S"

RESOLUTION

Be it Resolved, that it is necessary that sidewalks be constructed in front of the following lots and blocks and that such sidewalks be six (6) feet in width, except as herein otherwise provided; and be of sand and cement mixed one to three and three inches deep:

- Lot 18, block 194, Original Town;
- Lots 12 and 13, block 1, Riverside addition; 4 feet in width;
- Lots 10 and 11, block 20, Sleeper's addition;
- Lot 7, block 18, Sleeper's addition;
- Lots 11 and 12, block 16, Sleeper's addition;
- Lots 9, 10, block 2, Second addition;
- Lot 5, block 3, Parker's addition;
- Lots 7 and 8, block 4, Parker's addition;
- Lots 1 to 10, inclusive, block 153 First addition;
- Lots 10 to 21, inclusive, block 9, Chippewa addition;
- Lots 2 and 3, block 12, Farrar & Forsyth addition;
- Lots 1, 2 and 3, block 18, Farrar & Forsyth addition;
- Lots 4, 5 and 6, block 23, Farrar & Forsyth addition;
- Lots 13 to 16, inclusive, block 239, First addition;
- Lots 22 and 24, block 239, First addition;
- Lots 15 and 16 and 17, block 269, First addition;
- Lots 23 and 24, block 269, First addition;
- Lots 1 to 12, inclusive, block 129, First addition;
- Lots 1 to 12, inclusive, block 159, First addition;
- W 1/4 of NE 1/4 of block 1, Second addition;
- East 100 feet of the NW 1/4 of block 1, Second addition;
- North 150 feet of Tract 25, Holland's Third addition;
- Lots 17 and 18, block 38, Second addition.

Adopted September 2nd, 1913.

C. A. LAGERQUIST, President of City Council.

Attest, V. N. RODERICK, City Clerk. Approved September 8th, 1913. R. A. HENNING, Mayor. Published September 10th, 1913.

Sometimes the symptoms of kidney and bladder trouble are so plain no one can mistake them. Backache, weak and lame back with soreness over the kidneys, sharp pains, rheumatism, dull headache, and disturbed sleep, are all indications of a trouble that Foley Kidney Pills will relieve quickly and permanently. Try them. For sale by H. P. Dunn.—Adv. mwt

In No Danger. "They say gonorrhea is a disease," remarked Billies. "Well, I wouldn't worry," replied the Grouch. "You look perfectly healthy!"—Philadelphia Record.

- Automatics
- Pump guns
- Double & single barrel guns
- Shell bags and belts
- Duck calls
- Decoy ducks
- Gun case
- Lunch kits

We carry a complete assortment of shot gun and rifle shells. Don't wait until the last day, come in now and let us lay what you want aside for you.

D. M. CLARK & Co.

SCHOOL MATTERS ARE REVIEWED

Normal Training Department is Established with Miss Addie M. Clark in Charge

MANUAL TRAINING ROOM READY

Enrollment in the Schools Now Greater Than the Highest Last Year

The work of the schools of the city has settled down to a regular program and everything is going nicely. The teaching force is complete and the personnel is satisfactory. A number of improvements have been made in the buildings. At the Washington there has been a change made in the office arrangements, the stock room has been put down stairs and is connected by a trap door with the supply room up stairs.

The basement in the south wing has been adapted for sewing and manual training.

On the second floor a lavatory has been provided for the girls. The cloak room off from the chemical laboratory and the room formerly used for the principal's office have been converted into a recitation room.

The enrollment for the high school is large. For the first week of the present year it is twenty more than the highest number last year. This does not include twenty students who are enrolled for the normal department.

Miss Addie M. Clark has been engaged for this latter department. She is a graduate of the advanced course of the state normal at Mankato, also a graduate of the university. She has had experience in rural, graded and semi-graded schools. She will be here next Monday to take charge.

Last Tuesday afternoon the normal training girls were detailed for observation work with the lower grade teachers in the several schools.

The manual training room will soon be ready for its formal opening. The training room is fitted up with twenty benches made of select hard maple and each bench has two steel vises. The apparatus has not all arrived. This training will be required of all seventh and eighth grade male students but will be elective for those in the high school.

The enrollment in the north side school is larger than last year. Last year in the Whittier building it was 189 and this year it is 202.

Work in the cooking and sewing department is elective but so popular has this science become that the time put in by each girl had to be cut down to accommodate the increased number. Besides the actual practice a text book is used to study the theoretical side. Miss Moreland, the instructor, is assisted by cadets in the normal training branch.

C. M. Grey is the instructor in the commercial department. He is a graduate of the state normal and the Cleary Business College. He came from Ipsanti, Michigan. This course is appealing to many.

With the present rate of growth of our schools it will not be long before the uncompleted wing of the high school will have to be completed. In the architectural plan this building

was ultimately to extend out to Oak street. The growth of the city is bringing about the necessity for its fulfillment.

BRAINERD GARDENS ARE FINE

They Reduce the High Cost of Living and Bring Joy and Health to the Owners

The gardens of the city have produced luxuriantly this past season. There has been no frost to hurt them, so even at this late date many are living from them.

The Homecroft enthusiasts insist upon everyone who can do it by hook or crook planting a little patch of ground. They have valuable statistics up their sleeve as to the reduction of the cost of living by having even a small garden. Moreover they advise what has been proven the most valuable to plant, how to plant them and how to conserve space.

Homecrofting is now a science. The time was when these homecrofters had to debate with people who only had small plots that could be used for garden. Had to "show them" But there is no debate any longer. The small areas such as the back part of twenty-five foot lots have proven their value. And it only took one season to do it. One man whose grocery bill was twenty-five dollars a month without a garden found it was reduced to five with a garden.

This homecroft movement has come about in this city without agitation. There are gardens here that would elicit the praise of the most expert gardeners. They have enabled many to live like peers of the realm. They have afforded recreation for shop men, clerks and business men. The cliff-dwellers in some of our flat buildings could have a garden by using some vacant lot nearby.

Homecrofting reduces the price of living, affords wholesome recreation, and helps to make the town more attractive for there is nothing more appealing to the eye than a nicely arranged garden.

P. S.—The writer has no garden. He is at the mercy of his friends. He needs, melons, tomatoes, rutabagas, pumpkins, cabbage, squash and potatoes. He has a good cellar.

Fourth Ward Citizens Attention

A mass meeting of the citizens of the Fourth ward will be held in the Fourth ward hose house tonight at 7:30 P. M., for the purpose of considering certain amendments to the Street Railway franchise and acting upon the same.

All Fourth ward citizens are cordially and earnestly invited to be present, and especially those citizens who signed petitions at the previous Fourth ward meeting are requested to be present.—Adv't.

Hunter's Supplies

Have you got everything you need for a successful hunt this fall? There is lots of game and if you let us outfit you, you will get your share of it. Look this list thru:

Hunting coats
Hunting caps
Game bags
Thermos bottles

Automatics
Pump guns
Double & single barrel guns
Shell bags and belts

Duck calls
Decoy ducks
Gun case
Lunch kits

We carry a complete assortment of shot gun and rifle shells. Don't wait until the last day, come in now and let us lay what you want aside for you.

D. M. CLARK & Co.

"BLIND LEADERS OF THE BLIND"

These Words Apply to Pastor
Russell and Others, He Says.

Ministers Have Deceived the People Respecting the Bible Teachings—But They Were Themselves Deceived, Hence Not Wilfully Guilty—The Duty of the Hour is to Undeceive the Public and to Remove the Slander From God's Character—Courage Necessary—Otherwise Many Will Fall Into the Ditch of Unbelief—The Educated Are There Already.

London, August 10.—Pastor Russell addressed the London Tabernacle congregation twice today. We report his discourse from the text, "If the blind lead the blind, both shall fall into the ditch."—Matthew 18:14.

The Pastor said: How stupidly blind we have all been respecting our Father's words! We have believed human traditions, and neglected the Scriptures, until the Church as a whole has become thoroughly puzzled respecting everything religious. All are out of the way of Truth, lost in the fog of human superstition and error, misled, as St. Paul foretold, by "doctrines of demons."—1 Timothy 4:1.

The duty of the hour is to get back into harmony with God, and to obtain true light upon His Word. As the Master predicted, the whole world has been intoxicated with the false doctrines which Satan gradually introduced during the Dark Ages.—Rev. 17:2.

Like drunken people, said the Pastor, we confused good and bad. In one breath, we told of the Love of God. In another, we painted this God of Love as deliberately arranging, before creating humanity, that billions should be born in sin, misshapen in iniquity; and that after a few short years full of trouble the vast majority should be turned over to fire-proof demons, to be tortured throughout eternity.

Satan's Great Success.

Pastor Russell reminded his hearers that the Master styled Satan the father of lies. Satan's first great lie misled and murdered our first parents by inducing them to disobey God's words, "In the day that thou eatest thereof, thou shalt surely die." Satan contradicted the Almighty, saying, "Ye shall not surely die"—cannot die, ye are immortal.

Satan has impressed this falsehood upon the whole world. While in fulfillment of God's word people die, Satan has brought in the deceptive theory that they have merely gone elsewhere to live.

Thus, contrary to all Scripture, mankind have come to believe that at death the saints go to Heaven, and all others go either to Hell or Purgatory. The plain, common-sense statement of the Bible is ignored—that all, good and bad, old and young, go to Sheol, Hades, the tomb. Thus the Bible teaching that Jesus' redemptive work assures all a resurrection from the dead is made void by Satan's lie.

Immortality in Christ.

The Pastor then demonstrated conclusively from Scripture that immortality is a hope, not a possession. Man was not created immortal; but the life given him was conditional upon his obedience to his Creator's commands. This is indicated by God's threat that disobedience would bring death—cessation of life. St. Paul's argument is that positive assurance of everlasting life was not given until Christ "brought immortality and life to light through the Gospel."—2 Timothy 1:10.

Immortality is a quality of life thus far possessed by Jehovah God and by His Son, our Lord Jesus Christ. The hope of the Church is to attain the promised "glory, honor and immortality" in the First Resurrection. The hope for the non-elect world is that of everlasting life, the same as that given to the angels—to all of mankind who will, during the Millennium, come into harmony with the Messiah King. Those who, after fullest opportunity for recovery from sin and death conditions, will not render obedience to the Divine arrangement, will be everlastingly destroyed.

This Bible presentation of the matter—that God's proposition is life or death—we are beginning to see is most reasonable, most logical, said Pastor Russell. Furthermore, his proposition is that when His Plan shall have been completed, none shall have life who will not have it in perfection. He desires not mental, moral and physical degenerates in His Kingdom.

As a result of the permission of sin and death, God's Wisdom, Justice, Love and Power will be more clearly seen by both angels and men. Until we realized the Absolute Justice of God in allowing our race to go down into death and in sending His Son to die for us, giving the redemption-price of Adam's sin, we could not see the depths of Divine Wisdom and Love.

The resurrection will be a stupendous expression of Divine Power. Resurrection involves no absurdities, as Scripturally seen. The Bible proposes for both Church and world a resurrection of the soul, the being. But to each class, as St. Paul declares, "God gives a body as it hath pleased Him."

YOUR TRUEST SELF.

We grow so easily to forget our noblest and most splendid things. It seems to me there is no maxim for a noble life like this: Count always your highest moments your truest moments. Believe that in the time when you were the greatest and most spiritual man then you were your truest self.—Phillips Brooks.

TREATING A DOG BITE

Act Promptly and There is Little Danger of Hydrophobia.

If you should be bitten by a dog suspected of rabies don't get scared, but act promptly.

Immediately apply a tourniquet above the wound. No tourniquet being at hand, use a handkerchief or necktie, twisting it tightly with a stick.

The poison should then be sucked out and the wound cauterized as soon as possible. If it is believed the dog was mad the Pasteur treatment should be resorted to. Only two-tenths of 1 per cent of those who take this treatment develop hydrophobia.

Although the germ of rabies has not been demonstrated, it is generally conceded the disease has a specific germ. Rabies never occurs in the human spontaneously, but always by inoculation. It is also moderately well demonstrated that dogs and other animals likewise contract the disease through inoculation. Many more male than female dogs go mad. The reason given for this is that male dogs fight among themselves, but a male seldom bites a female. The proportion is seven mad males to one mad female. Contrary to popular belief, rabies is more common in a temperate zone than in the tropics or the arctic region and in spring and fall than in summer and winter.

The only sure preventive thus far found for rabies is thorough muzzling, which is another proof that the disease has its origin in inoculation.

There is a disease called lyssophobia which closely resembles hydrophobia and is brought on by nervous dread. It has been contended by some that there is really no difference between these diseases and that hydrophobia is imaginary. This claim is refuted by the fact that animals and very young children, knowing neither imagination, dread or fear, do succumb to a disease exhibiting the unmistakable symptoms of hydrophobia.

These symptoms are, first, a fear of water, from which the disease derives its name; then the muscles stiffen and an attempt to drink water brings on convulsions; next the mere sight of water is sufficient to bring on a recurrence of the convulsions, fever sets in and death ensues in about a week, generally from exhaustion.

There is no known remedy for rabies, though opiates are freely used to alleviate the pain.—Dr. John J. Kelly in New York World.

OUR ENTERTAINERS.

Ten Per Cent of America's Population Work to Amuse the Rest.

It has been roughly estimated that 10 per cent of us, the people of the United States, keep busy and earn our living by amusing the other 90 per cent. This 10 per cent includes those who do the actual work of amusing—singers in grand opera, light opera, concert; actors in the "legitimate" theaters, in vaudeville, in burlesque, in small shows; performers in the various departments of the innumerable circuses, carnivals, street fairs, baseball players, football players, basketball players, motor racers, aviators, boxers, innumerable exponents of innumerable forms of professional athletics and professional sports.

It includes also the people who promote these amusements, who incorporate companies and manufacture devices to be used in amusing—film companies, with armies of employees in the moving picture field, for example; the people in their large office forces, the people who manage and direct theaters, amusement parks, race courses, athletic fields, etc.; stage hands, mechanicals, electricians and employees in countless other ramifications of the general business of amusement.

It includes those who originate schemes of entertainment, those who finance them, those who manage them, those who execute them, those press agents, advance men, sign painters, "spielers" and "bankers," etc., who advertise them and draw the attention of the rest of us—the patrons who comprise the other 90 per cent.—World's Work.

Impertinence.

"I notice that you and Simmons don't seem to be as friendly as you were formerly."

"No. He has no use for me any more."

"What's the matter?"

"At the club a few nights ago he attempted to tell a joke at my expense, and by a lucky inspiration I was able to slip in a remark which turned the laugh on him."—Chicago Record-Herald.

Liszt a Dry Smoker.

Liszt was a dry smoker of a peculiar type. Massenet, who knew him well in his later years, tells us that Liszt could not play unless he had a cigar in his mouth, which he never troubled to light. He would sit down to the piano with a cigar between his teeth and keep munching it all the time he played. When the cigar was quite eaten up the abbe would rise from the instrument exhausted.

Origin of Ragtime.

How did we begin to ragtime? Old players will recollect the Bohee brothers, who came over in the early eighties and sang plantation songs in ragtime to banjo accompaniment. And years before this there was the famous "jimmie" song and dance brought over by Dan Rice, the first "nigger" minstrel. The early plantation songs were at one time thought to be folk songs brought from Africa, but the generally accepted theory is that they were picked up by the negroes from the revival preachers. But the curiously marked rhythm of the melodies—ragtime—is of undoubted African origin.—London Spectator.

Fitting the Tire Valve Cap.

In putting on a tire valve cap, after it has been screwed tight, loosen it a little and listen to see if there is any leak. If there is then the cap has pushed the plunger down, and the thing to do is to adjust the washer in the cap so that it does not touch the plunger.

NOVEL WINDOW SCREEN.

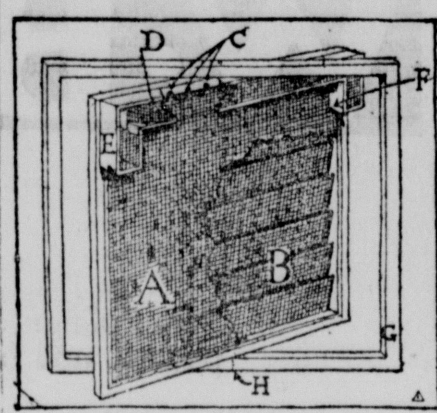

Keeps Insects Out of the House and Also Acts as a Trap.

A window screen that not only keeps the flies and mosquitoes out of your house, but catches those flies in the house that alight on it and reversed catches those flies that try to get in at night, is a brand new invention that has every appearance of being the most valuable of all arrangements for fighting those dangerous pests the house fly and mosquito.

The device is in reality a double screen set in an outside frame. The outside frame is made to order to fit any window. The inside frame may be reversed to work both ways—that is, in the day time flies alight on the windows or window screens because it is light, and they fly for the light, and so the trap side is set inside the room. At night the lights in the room attract the flies and mosquitoes out of doors, so the trap is reversed, facing out of doors, and the flies, attracted by the light in the room, alight on it and are trapped.

In the illustration A shows the whole screen, like any woven wire screen. B shows the trap side of the screen. Each one of the slats is made of screen wire and is arranged much like the slats on a blind, although immovable.

As an example one of these screens is in a window in a room. The blinds

WINDOW SCREEN FLY TRAP.

and shades on the other windows are closed, but on the window holding this trap screen the blinds are open and shades up, allowing all the light possible to come in. The room is closed, and in the summer the light begins to pour in very early. By breakfast time there have been several hours of light, and all the flies in the room naturally make for the light. They fly to the wire netting slats and crawl upward. Flies will crawl upward or sideways, but never downward. They always fly downward. These slats admit them, and they keep crawling up and up, finding no way out through the slats. At the top there are holes, C, through which they crawl. They are then in a trap. The hole D allows them to get into the actual trap E, where they cannot get out. The entire trap may be removed and dipped in hot water to kill them, or one may wait until they are dead and by turning a knob at F drop them out and burn them.

At night the inner screen is reserved in the pivot at H and the trap side is out of doors. The light inside again attracts them, and the process of catching them is repeated without removing the screen resting in the outside frame G from the window.

COFFEE FROM FIGS.

Dried Fruit Said to Produce a Beverage of Good Quality.

Ever since coffee has been a popular beverage, apparently, efforts have been made to find substitutes for it, either as mere adulterants, like chicory, or for the sake of greater wholesomeness or cheapness. Rye and other grains, lupine, acorns, beets and carrots have all been thus used, but the fig coffee, or Feden-Kaffee, which has latterly come into use in Austria and elsewhere, is a decided novelty. Les Anales quotes M. Trabut of Algiers as saying that an excellent coffee can be made from dried and roasted figs, which need not be of the first quality.

They are dried in the sun or in evaporating pans, according to climate, and then roasted in ovens till brown or almost black and quite brittle. They are then ground up and the resultant powder is pressed into tablets. These must be kept dry. When made use of they are merely dissolved in hot water. One hundred kilos of the dry figs give seventy-five kilos of the dry powder. The figs cost 15 francs, and the powder sells for 60 francs wholesale and 100 or more at retail, so that the trade ought to be profitable if a demand can be created. The beverage is said to be agreeable in color and flavor, with a somewhat sweeter taste than that made from chicory.

Mines of the United States.

How many mines are there in the United States? This is a question that often is asked. As nearly as can be determined, there are about 6,500 coal mines, and of metal mines there are about 6,000, producing and developing. With respect to the metallurgical works we can speak more accurately. There are nine copper refineries and forty-five smelters. There are twenty-eight lead smelting works, twenty-eight zinc and 314 iron. There are 159 open hearth steel works and thirty Bessemer works. Thus there is a total of 613 metallurgical works of the classes herein enumerated.—Engineering and Mining Journal.

TWO NEW U. S. JOBS OPEN.

Civil Service Examinations Announced For the Bureau of Markets.

Civil service examinations for positions in the newly created office of markets in the department of agriculture, the test to be made Aug. 4, are announced by the civil service commission. Two positions are to be filled, that of assistant in cotton marketing and assistant in co-operative organization accounting. The first will carry with it a salary of from \$1,800 to \$2,000 a year, while the second may range as high as \$2,400.

The duties of the assistant in cotton marketing will be the investigation of cotton marketing and handling methods and on occasion assisting in field demonstrations. The assistant in co-operative organization accounting will draw up proper forms for keeping the accounts of co-operative organizations of producers and consumers.

FACING SERIOUS DANGER.

Things That Almost Happen Sometimes Bring Gray Hairs.

"It is the things that almost happen which cause gray hairs in this business rather than the things that actually occur," said a veteran captain of an excursion boat.

"Every captain of a passenger carrying boat has the sinking of the Titanic, the Slocum disaster and such accidents on his mind continually, but somehow it's not the accidents that really occur that bring gray hairs.

"My first gray hair appeared when I was thirty-three years old. Then I was running a boat to Coney Island, and in the lower bay got settled down thicker than mush. I held a compass course, and everything went smoothly enough until it was almost time to change the course and head from the bay toward Coney. I had heard a boat—by her whistle I knew she was a towing tug—pass me further up the bay.

"Even though I could not see the bow of my boat I was hanging with my head out of the pilot house window and straining my eyes to see, when my quartermaster, who was standing on the very peak of the bow, called for me to reverse. I rang for full speed astern and threw the wheel hard to port.

"The fog lifted for an instant and dead ahead of me I saw a scow with 'Dynamite' written on her side and a red flag floating above her. I knew that meant she was loaded with dynamite, and the Lord pity us if we ran her down. I kept the wheel hard over, and it seemed to me the engineer was an eternity in getting the engine reversed. We just grazed the dynamite scow. I learned afterward that she had been in tow of a tug and that the hawser broke and the tug crew had lost sight of the scow in the fog.

"When I got home that night my wife pointed out a gray hair—the first I had ever had.

"My next bad scare came one Sunday when I was captain of another excursion steamer. We were at the pier loading passengers. There were two hawsers out to the pier, and the one astern broke. The gangplanks were out, and it being a very hot day, people were flocking aboard. There were at least seventy-five persons on the two gangplanks when the hawser broke, and the boat commenced to drift from the pier. I yelled, and the crew tried to force the passengers off the gangplanks, but those in the rear kept pushing, and the crew was helpless.

"There was only one thing to do. I rang for reversed engines. With the bow line out the reversing of the boat naturally backed her up against the dock and held her there, but that bow hawser was an old one, and if it broke the boat would back away and dump every one on the gangplanks into the river.

"To me it seemed like an age, but it was really not more than a minute until they had another line out astern and I could stop the engine. That caused several gray hairs.

"In all my experience I've never had a serious accident; but, as you see, I have a head full of gray hairs caused by things that almost happened."—New York Sun.

Failures.

The only failure a man ought to fear is failure in cleaving to the purpose he sees to be best.—George Eliot.

THE PRAISE CONTINUES

Everywhere We Hear Good Reports of Doan's Kidney Pills

Brainerd is no exception. Every section of the U. S. resounds with praise of Doan's Kidney Pills. Thirty thousand persons are giving testimony in their home newspapers. The sincerity of these witnesses, the fact that they live so near, is the best proof of the merits of Doan's. Here is a Brainerd case.

Mrs. C. Sundberg, 1524 E. Pine St., Brainerd, Minn., says: "Doan's Kidney Pills have earned my grateful endorsement. I suffered for several years from backache and it not only made me uncomfortable while doing my work, but also kept me from getting my proper rest at night. I was sometimes distressed by dizzy spells and often my feet and ankles were swollen. The doctors said I had kidney complaint but their medicine failed to help me. A few months ago I was told about Doan's Kidney Pills and I procured a box at H. P. Dunn's Drug Store. Since using them, I have had but little pain in my back and have been stronger and better able to do my work. If my experience will be the means of helping other kidney sufferers, I am glad to give a public account of it."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

This is the
Stove Polish
YOU
Should Use

It's different from others because more care is taken in the making and the materials used are of higher grade.

Black Silk Stove Polish

Makes a brilliant, silky polish that does not rub off or dust off, and the shine lasts four times as long as ordinary stove polish. Used on burners, stoves and sold by hardware dealers. Use it on your cook stove, your parlor stove or your gas range. If you don't like the best stove polish, countermand. Your dealer is authorized to refund your money. Insist on Black Silk Stove Polish. Made in Brazil or made—one quality.

BLACK SILK STOVE POLISH WORKS, Sterling, Illinois. The Black Silk Stove Polish is made on grates, registers, stove pipes—Prevents rusting. The Black Silk Stove Polish is for silver, nickel or brass. It has no equal for use on automobiles.

Get a Can TODAY

A Game That Lasts.

For the man who has once had the responsibility of coaching an eight oared crew the task has an attraction which can't be resisted. Some one asked me once why it is that most college crew coaches make good chess players. I knew that the person who put the question didn't know much about the rowing game, for producing a successful eight oared crew requires an amount of thinking which makes chess seem like pure recreation in comparison. Of course it's different from a chess problem in the fact that opponents don't always start with the same strength of forces, but this only adds to the fascination of trying to boat a winning combination.—Outing.

Hiccoughs.

The hiccough is an inspiration checked suddenly by closure of the glottis. This inspiration is caused by spasmodic contraction of the diaphragm and if long continued leads to exhaustion and, in rare instances, to death.

"BLIND LEADERS OF THE BLIND"

These Words Apply to Pastor Russell and Others, He Says.

Ministers Have Deceived the People Respecting the Bible Teachings—But They Were Themselves Deceived, Hence Not Wilfully Guilty—The Duty of the Hour is to Undeceive the Public and to Remove the Slander From God's Character—Courage Necessary—Otherwise Many Will Fall Into the Ditch of Unbelief—The Educated Are There Already.

London, August 30.—Pastor Russell addressed the London Tabernacle congregation twice today. We report his discourse from the text, "If the blind lead the blind, both shall fall into the ditch."—Matthew 18:14.

The Pastor said: How stupidly blind we have all been respecting our Father's words! We have believed human traditions, and neglected the Scriptures, until the Church as a whole has become thoroughly puzzled respecting everything religious. All are out of the way of Truth, lost in the fog of human superstition and error, misled, as St. Paul foretold, by "doctrines of demons."—1 Timothy 4:1.

The duty of the hour is to get back into harmony with God, and to obtain true light upon His Word. As the Master predicted, the whole world has been intoxicated with the false doctrines which Satan gradually introduced during the Dark Ages—Rev. 17:2.

Like drunken people, said the Pastor, we confused good and bad. In one breath, we told of the Love of God. In another, we painted this God of Love as deliberately arranging, before creating humanity, that billions should be born in sin, misshapen in iniquity; and that after a few short years full of trouble the vast majority should be turned over to fire-proof demons, to be tortured throughout eternity.

Satan's Great Success. Pastor Russell reminded his hearers that the Master styled Satan the father of lies. Satan's first great lie misled and murdered our first parents by inducing Mother Eve to disbelieve God's words, "In the day that thou eatest thereof, thou shalt surely die." Satan contradicted the Almighty, saying, "Ye shall not surely die"—cannot die, ye are immortal.

Satan has impressed this falsehood upon the whole world. While in fulfillment of God's word people die, Satan has brought in the deceptive theory that they have merely gone elsewhere to live.

Thus, contrary to all Scripture, mankind have come to believe that at death the saintly go to Heaven, and all others go either to Hell or Purgatory. The plain, common-sense statement of the Bible is ignored—that all, good and bad, old and young, go to Sheol, Hades, the tomb. Thus the Bible teaching that Jesus' redemptive work assures all a resurrection from the dead is made void by Satan's lie.

Immortality in Christ. The Pastor then demonstrated conclusively from Scripture that immortality is a hope, not a possession. Man was not created immortal; but the life given him was conditional upon his obedience to his Creator's commands. This is indicated by God's threat that disobedience would bring death—cessation of life. St. Paul's argument is that positive assurance of everlasting life was not given until Christ "brought immortality and life to light through the Gospel."—2 Timothy 1:10.

Immortality is a quality of life thus far possessed by Jehovah God and by His Son, our Lord Jesus Christ. The hope of the Church is to attain the promised "glory, honor and immortality" in the First Resurrection. The hope for the non-elect world is that of everlasting life, the same as that given to the angels—to all of mankind who will, during the Millennial Age, come into harmony with the Messianic Kingdom. Those who, after fullest opportunity for recovery from sin and death conditions, will not render obedience to the Divine arrangement, will be everlastingly destroyed.

This Bible presentation of the matter—that God's proposition is life or death—we are beginning to see is most reasonable, most logical, said Pastor Russell. Furthermore, His proposition is that when His Plan shall have been completed, none shall have life who will not have it in perfection. He desires not mental, moral and physical degenerates in His Kingdom.

As a result of the permission of sin and death, God's Wisdom, Justice, Love and Power will be more clearly seen by both angels and men. Until we realized the Absolute Justice of God in allowing our race to go down into death and in sending His Son to die for us, giving the redemption-price of Adam's sin, we could not see the depths of Divine Wisdom and Love.

The resurrection will be a stupendous expression of Divine Power. Resurrection involves no absurdities, as Scripturally seen. The Bible proposes for both Church and world a resurrection of the soul, the being. But to each class, as St. Paul declares, "God gives a body as it hath pleased Him."

YOUR TRUEST SELF.

We grow so easily to forget our noblest and most splendid natures. It seems to me there is no maxim for a noble life like this: Count always your highest moments your truest moments. Believe that in the time when you were the greatest and most spiritual man then you were your truest self.—Phillips Brooks.

TREATING A DOG BITE.

Act Promptly and There is Little Danger of Hydrophobia.

If you should be bitten by a dog suspected of rabies don't get scared, but act promptly.

Immediately apply a tourniquet above the wound. No tourniquet being at hand, use a handkerchief or necktie, twisting it tightly with a stick.

The poison should then be sucked out and the wound cauterized as soon as possible. If it is believed the dog was mad the Pasteur treatment should be resorted to. Only two-tenths of 1 per cent of those who take this treatment develop hydrophobia.

Although the germ of rabies has not been demonstrated, it is generally conceded the disease has a specific germ. Rabies never occurs in the human spontaneously, but always by inoculation. It is also moderately well demonstrated that dogs and other animals likewise contract the disease through inoculation. Many more male than female dogs go mad. The reason given for this is that male dogs fight among themselves, but a male seldom bites a female. The proportion is seven mad males to one mad female. Contrary to popular belief, rabies is more common in a temperate zone than in the tropics or the arctic region and in spring and fall than in summer and winter.

The only sure preventive thus far found for rabies is thorough muzzling, which is another proof that the disease has its origin in inoculation.

There is a disease called lyssophobia which closely resembles hydrophobia and is brought on by nervous dread. It has been contended by some that there is really no difference between these diseases and that hydrophobia is imaginary. This claim is refuted by the fact that animals and very young children, knowing neither imagination, dread or fear, do succumb to a disease exhibiting the unmistakable symptoms of hydrophobia.

These symptoms are, first, a fear of water, from which the disease derives its name; then the muscles stiffen and an attempt to drink water brings on convulsions; next the mere sight of water is sufficient to bring on a recurrence of the convulsions, fever sets in and death ensues in about a week, generally from exhaustion.

There is no known remedy for rabies, though opiates are freely used to alleviate the pain.—Dr. John J. Kelly in New York World.

OUR ENTERTAINERS.

Ten Per Cent of America's Population Work to Amuse the Rest.

It has been roughly estimated that 10 per cent of us, the people of the United States, keep busy and earn our living by amusing the other 90 per cent. This 10 per cent includes those who do the actual work of amusing—singers in grand opera, light opera, concert; actors in the "legitimate" theaters, in vaudeville, in burlesque, in small shows; performers in the various departments of the innumerable circuses, carnivals, street fairs, baseball players, football players, basketball players, motor racers, aviators, boxers, innumerable exponents of innumerable forms of professional athletics and professional sports.

It includes also the people who promote these amusements, who incorporate companies and manufacture devices to be used in amusing—film companies, with armies of employees in the moving picture field, for example; the people in their large office forces, the people who manage and direct theaters, amusement parks, race courses, athletic fields, etc.; stage hands, mechanics, electricians and employees in countless other ramifications of the general business of amusement.

It includes those who originate schemes of entertainment, those who finance them, those who manage them, those who execute them, those press agents, advance men, sign painters, "spies" and "bankers," etc., who advertise them and draw the attention of the rest of us—the patrons who comprise the other 90 per cent—World's Work.

Impertinence.

"I notice that you and Simmons don't seem to be as friendly as you were formerly."

"No. He has no use for me any more."

"What's the matter?"

"At the club a few nights ago he attempted to tell a joke at my expense, and by a lucky inspiration I was able to slip in a remark which turned the laugh on him."—Chicago Record-Herald.

Liszt a Dry Smoker.

Liszt was a dry smoker of a peculiar type. Massenet, who knew him well in his later years, tells us that Liszt could not play unless he had a cigar in his mouth, which he never troubled to light. He would sit down to the piano with a cigar between his teeth and keep munching it all the time he played. When the cigar was quite eaten up the abbe would rise from the instrument exhausted.

Origin of Ragtime.

How did we begin to ragtime? Old players will recollect the Bohee brothers, who came over in the early eighties and sang plantation songs in ragtime to banjo accompaniment. And years before this there was the famous "Jimmie" song and dance brought over by Dan Rice, the first "nigger" minstrel. The early plantation songs were at one time thought to be folk songs brought from Africa, but the generally accepted theory is that they were picked up by the negroes from the revival preachers. But the curiously marked rhythm of the melodies—ragtime—is of undoubted African origin.—London Spectator.

Fitting the Tire Valve Cap.

In putting on a tire valve cap, after it has been screwed tight, loosen it a little and listen to see if there is any leak. If there is then the cap has pushed the plunger down, and the thing to do is to adjust the washer in the cap so that it does not touch the plunger.

NOVEL WINDOW SCREEN.

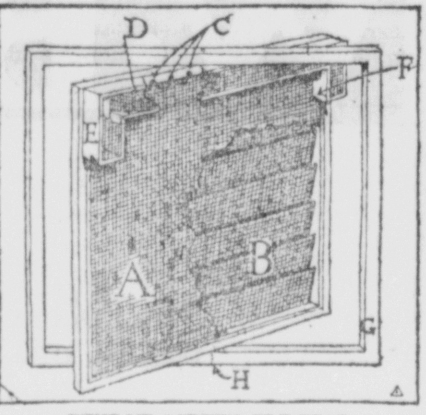

Keeps Insects Out of the House and Also Acts as a Trap.

A window screen that not only keeps the flies and mosquitoes out of your house, but catches those flies in the house that alight on it and reversed catches those flies that try to get in at night, is a brand new invention that has every appearance of being the most valuable of all arrangements for fighting those dangerous pests the house fly and mosquito.

The device is in reality a double screen set in an outside frame. The outside frame is made to order to fit any window. The inside frame that is reversed to work both ways—that is, in the day time flies alight on the windows or window screens because it is light, and they fly for the light, and so the trap side is set inside the room. At night the lights in the room attract the flies and mosquitoes out of doors, so the trap is reversed, facing out of doors, and the flies, attracted by the light in the room, alight on it and are trapped.

In the illustration A shows the whole screen, like any woven wire screen. B shows the trap side of the screen. Each one of the slats is made of screen wire and is arranged much like the slats on a blind, although immovable.

As an example one of these screens is in a window in a room. The blinds

WINDOW SCREEN FLY TRAP.

and shades on the other windows are closed, but on the window holding this trap screen the blinds are open and shades up, allowing all the light possible to come in. The room is closed, and in the summer the light begins to pour in very early. By breakfast time there have been several hours of light, and all the flies in the room naturally make for the light. They fly to the wire netting slats and crawl upward. Flies will crawl upward or sideways, but never downward. They always fly downward. These slats admit them, and they keep crawling up and up, finding no way out through the slats. At the top there are holes, C, through which they crawl. They are then in a trap. The hole D allows them to get into the actual trap E, where they cannot get out. The entire trap may be removed and dipped in hot water to kill them, or one may wait until they are dead and by turning a knob at F drop them out and burn them.

At night the inner screen is reserved in the pivot at H and the trap side is out of doors. The light inside again attracts them, and the process of catching them is repeated without removing the screen resting in the outside frame G from the window.

COFFEE FROM FIGS.

Dried Fruit Said to Produce a Beverage of Good Quality.

Ever since coffee has been a popular beverage, apparently, efforts have been made to find substitutes for it, either as mere adulterants, like chicory, or for the sake of greater wholesomeness or cheapness. Rye and other grains, lupine, acorns, beets and carrots have all been thus used, but the fig coffee, or Felgen-Kaffee, which has lately come into use in Austria and elsewhere, is a decided novelty. Les Angeles quotes M. Trabut of Algiers as saying that an excellent coffee can be made from dried and roasted figs, which need not be of the first quality.

They are dried in the sun or in evaporating pans, according to climate, and then roasted in ovens full of brown or almost black and quite brittle. They are then ground up and the resultant powder is pressed into tablets. These must be kept dry. When made use of they are merely dissolved in hot water.

One hundred kilos of the dry figs give seventy-five kilos of the dry powder. The figs cost 15 francs, and the powder sells for 60 francs wholesale and 100 or more at retail, so that the trade ought to be profitable if a demand can be created. The beverage is said to be agreeable in color and flavor, with a somewhat sweeter taste than that made from chicory.

Mines of the United States.

How many mines are there in the United States? This is a question that often is asked. As nearly as can be determined, there are about 6,500 coal mines, and of metal mines there are about 6,000, producing and developing. With respect to the metallurgical works we can speak more accurately. There are nine copper refineries and forty-five smelters. There are twenty-eight zinc and 314 iron. There are 159 open hearth steel works and thirty Bessemer works. Thus there is a total of 613 metallurgical works of the classes herein enumerated. — Engineering and Mining Journal.

TWO NEW U. S. JOBS OPEN.

Civil Service Examinations Announced For the Bureau of Markets.

Civil service examinations for positions in the newly created office of markets in the department of agriculture, the test to be made Aug. 4, are announced by the civil service commission. Two positions are to be filled, that of assistant in cotton marketing and assistant in co-operative organization accounting. The first will carry with it a salary of from \$1,800 to \$2,000 a year, while the second may range as high as \$2,400.

The duties of the assistant in cotton marketing will be the investigation of cotton marketing and handling methods and on occasion assisting in field demonstrations. The assistant in co-operative organization accounting will draw up proper forms for keeping the accounts of co-operative organizations of producers and consumers.

FACING SERIOUS DANGER.

Things That Almost Happen Sometimes Bring Gray Hairs.

"It is the things that almost happen which cause gray hairs in this business rather than the things that actually occur," said a veteran captain of an excursion boat.

"Every captain of a passenger carrying boat has the sinking of the Titanic, the Slocum disaster and such accidents on his mind continually, but somehow it's not the accidents that really occur that bring gray hairs.

"My first gray hair appeared when I was thirty-three years old. Then I was running a boat to Coney Island, and in the lower bay fog settled down thicker than mush. I held a compass course, and everything went smoothly enough until it was almost time to change the course and head from the bay toward Coney. I had heard a boat—by her whistle I knew she was a towing tug—pass me further up the bay.

"Even though I could not see the bow of my boat I was hanging with my head out of the pilot house window and straining my eyes to see, when my quartermaster, who was standing on the very peak of the bow, called for me to reverse. I rang for full speed astern and threw the wheel hard to port.

"The fog lifted for an instant and dead ahead of me I saw a scow with 'Dynamite' written on her side and a red flag floating above her. I knew that meant she was loaded with dynamite, and the Lord pity us if we ran her down. I kept the wheel hard over, and it seemed to me the engineer was an eternity in getting the engine reversed. We just grazed the dynamite scow. I learned afterward that she had been in tow of a tug and that the hawser broke and the tug crew had lost sight of the scow in the fog.

"When I got home that night my wife pointed out a gray hair—the first I had ever had.

"My next bad scare came one Sunday when I was captain of another excursion steamer. We were at the pier loading passengers. There were two hawsers out to the pier, and the one astern broke. The gangplanks were out, and it being a very hot day, people were flocking aboard. There were at least seventy-five persons on the two gangplanks when the hawser broke, and the boat commenced to drift from the pier. I yelled, and the crew tried to force the passengers off the gangplanks, but those in the rear kept pushing, and the crew was helpless.

"There was only one thing to do. I rang for reversed engines. With the bow line out the reversing of the boat naturally backed her up against the dock and held her there, but that bow hawser was an old one, and if it broke the boat would back away and dump every one on the gangplanks into the river.

"To me it seemed like an age, but it was really not more than a minute until they had another line out astern and I could stop the engine. That caused several gray hairs.

"In all my experience I've never had a serious accident; but, as you see, I have a head full of gray hairs caused by things that almost happened."—New York Sun.

Failures.

The only failure a man ought to fear is failure in cleaving to the purpose he sees to be best.—George Eliot.

THE PRAISE CONTINUES

Everywhere We Hear Good Reports of Doan's Kidney Pills

Brainerd is no exception. Every section of the U. S. resounds with praise of Doan's Kidney Pills. Thirty thousand persons are giving testimony in their home newspapers. The sincerity of these witnesses, the fact that they live so near, is the best proof of the merits of Doan's. Here is a Brainerd case.

Mrs. C. Sundberg, 1524 E. Pine St., Brainerd, Minn., says: "Doan's Kidney Pills have earned my grateful endorsement. I suffered for several years from backache and it not only made me uncomfortable while doing my work, but also kept me from getting my proper rest at night. I was sometimes distressed by dizzy spells and often my feet and ankles were swollen. The doctors said I had kidney complaint but their medicine failed to help me. A few months ago I was told about Doan's Kidney Pills and I procured a box at H. P. Dunn's Drug Store. Since using them, I have had but little pain in my back and have been stronger and better able to do my work. If my experience will be the means of helping other kidney sufferers, I am glad to give a public account of it."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

This is the Stove Polish YOU Should Use

It's different from others because more care is taken in the making and the materials used are of higher grade.

Black Silk Stove Polish

Makes a brilliant silky polish that does not rub off or dust off, and the shine lasts four times as long as ordinary stove polish. Used on stoves and ranges, and sold by hardware dealers.

All we ask is a trial. Use it on your cook stove, your parlor stove or your gas range. If you don't find it the best stove polish you ever used, your dealer is authorized to return your money.

Made in liquid or paste—both quality.

BLACK SILK STOVE POLISH WORKS

Sterling, Illinois

The Black Silk Air-Drying Iron Enamel on grates, registers, stove pipes—prevents rusting. The Black Silk Metal Polish for silver, nickel or brass. It has no equal for use on automobiles.

A Game That Lasts.
For the man who has once had the responsibility of coaching an eight oared crew the task has an attraction which can't be resisted. Some one asked me once why it is that most college crew coaches make good chess players. I knew that the person who put the question didn't know much about the rowing game, for producing a successful eight oared crew requires an amount of thinking which makes chess seem like pure recreation in comparison. Of course it's different from a chess problem in the fact that opponents don't always start with the same strength of forces, but this only adds to the fascination of trying to boat a winning combination.—Outing.

Hiccoughs.
The hiccough is an inspiration checked suddenly by closure of the glottis. This inspiration is caused by spasmodic contraction of the diaphragm and if long continued leads to exhaustion and, in rare instances, to death.
